ISO 22476-8:2018 (E)

Geotechnical investigation and testing — Field testing — Part 8: Full displacement pressuremeter test

Contents

Foreword

1 Scope

2 Normative references

3 Terms, definitions and symbols

3.1 Terms and definitions
3.2 Symbols

4 Equipment

4.1 General
4.2 Cone module
4.3 Pressuremeter module
4.4 Measuring system

5 Test procedure

5.1 Selection of equipment and procedures
5.2 Preparation
5.3 Installation
5.4 Pressuremeter test
5.4.1 General
5.4.2 Optional test stages
5.4.3 Frequency of logging parameters
5.5 Test completion

6 Test results

7 Report

Annex A (informative) Uncertainties in pressuremeter testing

Annex B (normative) Calibrations

Annex C (normative) Corrections on the volume

Annex D (normative) Corrections on the pressure

Annex E (informative) Strain conversions
