

ISO 22476-8:2018 (E)

Geotechnical investigation and testing — Field testing — Part 8: Full displacement pressuremeter test

Contents

	Foreword
1	Scope
2	Normative references
3	Terms, definitions and symbols
3.1	Terms and definitions
3.2	Symbols
4	Equipment
4.1	General
4.2	Cone module
4.3	Pressuremeter module
4.4	Measuring system
5	Test procedure
5.1	Selection of equipment and procedures
5.2	Preparation
5.3	Installation
5.4	Pressuremeter test
5.4.1	General
5.4.2	Optional test stages
5.4.3	Frequency of logging parameters
5.5	Test completion
6	Test results
7	Report
Annex A	(informative) Uncertainties in pressuremeter testing
Annex B	(normative) Calibrations
Annex C	(normative) Corrections on the volume
Annex D	(normative) Corrections on the pressure
Annex E	(informative) Strain conversions
