| European foreword ..... |   | 4           |
| Foreword .....          |   | 5           |
| Introduction .....      |   | 6           |
| <b>1</b>                | <b>Scope .....</b>  | <b>8</b>    |
| <b>2</b>                | <b>Normative references .....</b>   | <b>8</b>    |
| <b>3</b>                | <b>Terms and definitions .....</b>  | <b>8</b>    |
| 3.1                     | General terms .....   | 8           |
| 3.2                     | Terms related to assets and projects .....  | 8           |
| 3.3                     | Terms related to information management .....   | 10          |
| <b>4</b>                | <b>Asset and project information, perspectives and collaborative working .....</b>    | <b>13</b>   |
| 4.1                     | Principles .....  | 13          |
| 4.2                     | Information management according to the ISO 19650 series .....                        | 13          |
| 4.3                     | Information management perspectives .....   | 14          |
| <b>5</b>                | <b>Definition of information requirements and resulting information models .....</b>  | <b>15</b>   |
| 5.1                     | Principles .....  | 15          |
| 5.2                     | Organizational information requirements (OIR) .....                                   | 17          |
| 5.3                     | Asset information requirements (AIR) .....  | 17          |
| 5.4                     | Project information requirements (PIR) .....  | 17          |
| 5.5                     | Exchange information requirements (EIR) .....   | 17          |
| 5.6                     | Asset information model (AIM) .....   | 18          |
| 5.7                     | Project information model (PIM) .....   | 18          |
| <b>6</b>                | <b>The information delivery cycle .....</b>   | <b>18</b>   |
| 6.1                     | Principles .....  | 18          |
| 6.2                     | Alignment with the asset life cycle .....   | 18          |
| 6.3                     | Setting information requirements and planning for information delivery .....          | 20          |
| 6.3.1                   | General principles .....  | 20          |
| 6.3.2                   | Delivery team provides information for asset owner/operator or client decisions ..... | 22          |
| 6.3.3                   | Information verification and validation at start and end of project stages .....      | 22          |
| 6.3.4                   | Information is drawn from the whole delivery team .....                               | 23          |
| 6.3.5                   | Summary of information delivery from project and asset delivery teams .....           | 24          |
| <b>7</b>                | <b>Project and asset information management functions .....</b>                       | <b>25</b>   |
| 7.1                     | Principles .....  | 25          |
| 7.2                     | Asset information management functions .....  | 26          |
| 7.3                     | Project information management functions .....  | 26          |
| 7.4                     | Task information management functions .....   | 26          |
| <b>8</b>                | <b>Delivery team capability and capacity .....</b>                                    | <b>27</b>   |
| 8.1                     | Principles .....  | 27          |
| 8.2                     | Extent of capability and capacity review .....  | 27          |

|                              |  |           |
|------------------------------|--|-----------|
| <b>9</b>                     | <b>Information container-based collaborative working .....</b>                                     | <b>27</b> |
| <b>10</b>                    | <b>Information delivery planning .....</b>   | <b>28</b> |
| <b>10.1</b>                  | <b>Principles .....</b>  | <b>28</b> |
| <b>10.2</b>                  | <b>Timing of information delivery .....</b>  | <b>28</b> |
| <b>10.3</b>                  | <b>Responsibility matrix .....</b>   | <b>29</b> |
| <b>10.4</b>                  | <b>Defining the federation strategy and breakdown structure for information containers .....</b>   | <b>29</b> |
| <b>11</b>                    | <b>Managing the collaborative production of information .....</b>                                  | <b>30</b> |
| <b>11.1</b>                  | <b>Principles .....</b>  | <b>30</b> |
| <b>11.2</b>                  | <b>Level of information need .....</b>   | <b>30</b> |
| <b>11.3</b>                  | <b>Information quality .....</b>   | <b>30</b> |
| <b>12</b>                    | <b>Common data environment (CDE) solution and workflow .....</b>                                   | <b>31</b> |
| <b>12.1</b>                  | <b>Principles .....</b>  | <b>31</b> |
| <b>12.2</b>                  | <b>The work in progress state .....</b>  | <b>32</b> |
| <b>12.3</b>                  | <b>The check/review/approve transition .....</b>   | <b>32</b> |
| <b>12.4</b>                  | <b>The shared state .....</b>  | <b>32</b> |
| <b>12.5</b>                  | <b>The review/authorize transition .....</b>   | <b>33</b> |
| <b>12.6</b>                  | <b>The published state .....</b>   | <b>33</b> |
| <b>12.7</b>                  | <b>The archive state .....</b>   | <b>33</b> |
| <b>13</b>                    | <b>Summary of "building information modelling (BIM) according to the ISO 19650 series" ...</b>     | <b>33</b> |
| <b>Annex A (informative)</b> | <b>Illustrations of federation strategies and information container breakdown structures .....</b> | <b>37</b> |
| <b>A.1</b>                   | <b>General .....</b>   | <b>37</b> |
| <b>A.2</b>                   | <b>Simultaneous working .....</b>  | <b>37</b> |
