DIN EN 12390-12:2020-04 (E)

Testing hardened concrete - Part 12: Determination of the carbonation resistance of concrete - Accelerated carbonation method

Contents

Page

European foreword 3

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Principle 7

5 Reagents and apparatus 8

6 Production of concrete specimens 9
6.1 General 9
6.2 Making and testing concrete specimens 9

7 Carbonation depth measurements 10

8 Determination of the carbonation depth 10
8.1 General 10
8.2 Measuring the depth of carbonation on each test specimen 11
8.3 Appreciation of dense aggregates 11
8.4 Appreciation of pores and porous aggregates and extreme values 11
8.5 Expression of the Results 11

9 Test Report 12

10 Precision estimate 13

Annex A (informative) Guidance on storage chambers 15
