DIN 18035-7:2019-12 (E)

Sports grounds - Part 7: Synthetic turf areas

Contents

Page

Foreword ... 4

1 Scope ... 5

2 Normative references ... 5

3 Terms and definitions ... 8

4 Requirements ... 10
4.1 General ... 10
4.2 Subgrade (native soil and sub-base) ... 11
4.2.1 General ... 11
4.2.2 Preliminary examinations ... 12
4.2.3 Verification tests ... 13
4.3 Filter stability ... 13
4.4 Unbound supporting layer ... 13
4.5 Bound supporting layer ... 17
4.5.1 Asphalt layer ... 17
4.5.2 Bound resilient supporting layer ... 19
4.6 Shockpad ... 21
4.7 Synthetic turf surface ... 24
4.7.1 General ... 24
4.7.2 Laying ... 24
4.7.3 Playing field markings ... 24
4.7.4 Irrigation ... 24
4.8 Mineral and elastic infill materials ... 24
4.9 Environmental impact ... 25

5 Material characteristics and descriptive features ... 26

6 Testing ... 28
6.1 Suitability tests ... 28
6.2 Quality monitoring ... 28
6.3 Verification testing ... 28

7 Test methods ... 29
7.1 General ... 29
7.1.1 Testing and conditioning conditions ... 29
7.1.2 Test specimens ... 29
7.1.3 Procedure ... 29
7.2 Bending resistance (bending force) ... 29
7.2.1 Test specimens ... 29
7.2.2 Test apparatus ... 29
7.2.3 Procedure ... 30
7.2.4 Evaluation ... 30
7.3 Rotational resistance ... 30
7.3.1 Test conditions ... 30
7.3.2 Laboratory test specimens ... 30
7.3.3 Test apparatus ... 31
7.3.4 Procedure ... 33
7.3.5 Evaluation ... 33

7.4 Dimensional stability ... 33
7.4.1 Test conditions ... 33
7.4.2 Test specimens ... 33
7.4.3 Test apparatus ... 33
7.4.4 Procedure ... 33
7.4.5 Evaluation ... 33
7.5 Compression set ... 33
7.5.1 Compression set at 65 °C ... 33
7.5.2 Compression set after ageing ... 35
7.6 Accelerated weathering of infill granulate by xenon lamp radiation ... 35
7.6.1 Test conditions ... 35
7.6.2 Test specimens ... 35
7.6.3 Test apparatus ... 35
7.6.4 Procedure ... 35
7.6.5 Evaluation ... 35
7.7 Weathering by hot water and heat ... 35
7.7.1 Weathering by hot water ... 35
7.7.2 Weathering by heat exposure ... 36
7.8 Effects on soil and groundwater ... 36
7.8.1 Sample preparation ... 36
7.8.2 Elution with water (24-h-elution) ... 36
7.8.3 Extraction with hexane to permit subsequent determination of organic halogen compounds (EOX) ... 37
7.8.4 Determination of dissolved organic compounds (dissolved organic carbon — DOC) ... 37
7.8.5 Determination of heavy metal contents ... 37
7.8.6 Determination of chlorinated paraffin ... 38
7.8.7 Determination of phthalate content ... 38
7.9 Determination of lateral tensile strength ... 38
7.9.1 Preparation of mixed-material samples ... 38
7.9.2 Test specimens (laboratory samples or mixed-material samples) ... 38
7.9.3 Test apparatus ... 38
7.9.4 Procedure ... 38
7.9.5 Evaluation ... 39
7.10 Testing of wear resistance ... 39
7.10.1 Test apparatus ... 39
7.10.2 Procedure ... 40
7.10.3 Evaluation ... 40
8 Care and maintenance ... 40
Annex A (informative) **Construction/design examples** ... 41
Annex B (informative) **Environmental protection recommendations** ... 42
Bibliography ... 43
