DIN 18560-1:2021-02 (E)

Floor screeds in building construction - Part 1: General requirements, testing and construction

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Symbols 5

5 General requirements 5
5.1 General 5
5.2 Thickness 5
5.3 Dry density 7
5.4 Dimensional stability 7
5.5 Mechanical properties 8
5.5.1 General 8
5.5.2 Lightweight levelling screed 8
5.6 Moisture content 8
5.7 Fire behaviour 9
5.8 Thermal insulation 9
5.9 Sound insulation 9
5.10 Outdoor screed 9

6 Testing 9
6.1 General 9
6.2 Testing screed materials 9
6.2.1 General 9
6.2.2 Receiving inspection 10
6.3 Testing of screeds (confirmation testing) 10
6.4 Measurement of moisture content 10
6.4.1 General 10
6.4.2 Test apparatus 11
6.4.3 Procedure 11

7 Workmanship 12
7.1 Calcium sulfate screed 12
7.2 Mastic asphalt screed 12
7.3 Magnesite screed 12
7.4 Synthetic resin screed 13
7.5 Cementitious screed 13

Annex A (informative) Protocol documenting the CM measurement 14

Tables Table 1 -- Screed thickness 6

Table 2 -- Top layer or wearing layer of single- or multi-layer screeds, or thickness of hard-aggregate wearing screed 6

Table 3 -- Density classes for screed 7

Table 4 -- Shrinkage classes for screeds 8
