

DIN EN 12390-18:2021-09 (E)

Testing hardened concrete - Part 18: Determination of the chloride migration coefficient

Contents		Page
	European foreword	3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Symbols	5
5	Principle	5
6	Apparatus and equipment	5
7	Preparation of specimens	8
7.1	Preparing sub-specimens	8
7.2	Preparing test specimens	9
8	Procedure	9
8.1	Installation of the test specimens in the migration cell	9
8.2	Installation of the migration cell in the migration apparatus	9
8.3	Test procedure	10
9	Test evaluation	13
9.1	Determination of the mean and maximum penetration depth	13
9.2	Determination of the chloride migration coefficient Mnss	13
10	Variations of the procedure	14
10.1	Specimens of sprayed mortar and sprayed concrete	14
11	Report	14
12	Precision estimate	15
	Annex A (informative) Background to chloride migration testing	17
	Bibliography	18
