ISO 9046:2021 (E)

Building and civil engineering sealants — Determination of adhesion/cohesion properties at constant temperature

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Apparatus

- 5.1 Substrate material
- 5.2 Spacers
- 5.3 Anti-adherent substrate
- 5.4 Ventilated convection-type oven
- 5.5 Container for water immersion
- 5.6 Test machine
- 5.7 Measuring device

6 Preparation of test specimens

7 Conditioning of test specimens

- 7.1 Preconditioning
- 7.2 Specific conditioning

8 Procedure

9 Test report

Page count: 5
