

# DIN EN 17468-2:2022-09 (E)

## Fibre-cement products - Determination of pull through and shear resistance and bending strength calculations - Part 2: Profiled sheets

---

<b>Contents</b>		<b>Page</b>
European foreword .....		4
Introduction .....		5
1	Scope .....	6
2	Normative references .....	6
3	Terms and definitions .....	6
4	Symbols and abbreviations .....	7
5	Product requirements .....	9
5.1	Composition .....	9
5.2	Appearance and finish .....	9
6	Sampling procedure .....	9
6.1	Sampling method .....	9
6.2	Type testing .....	9
6.3	Preparation of test specimens .....	9
6.3.1	Preparation of the test specimens for the pull through test .....	9
6.3.2	Preparation of test specimens for the shear resistance test .....	10
7	Test method for the determination of pull through resistance of fibre-cement profiled sheets .....	10
7.1	Principle .....	10
7.2	Test equipment .....	10
7.2.1	Tensile testing machine .....	10
7.3	Fasteners .....	13
7.4	Test procedure .....	13
7.5	Expression of results and test report .....	14
7.5.1	Pull through resistance .....	14
7.5.2	Test report .....	15
7.6	Field of application .....	15
8	Test method for the determination of shear resistance of fibre-cement profiled sheets .....	16
8.1	Principle .....	16
8.2	Test equipment .....	16
8.2.1	Testing of shear resistance .....	16
8.2.2	Shear resistance parallel to the corrugations .....	16
8.2.3	Shear resistance perpendicular to the corrugations .....	17
8.3	Fasteners .....	18
8.4	Test procedure .....	18
8.5	Expression of results and test report .....	19
8.5.1	Shear resistance .....	19
8.5.2	Test report .....	20
8.6	Field of application .....	20
9	Mechanical characteristics .....	20
9.1	Bending strength .....	20
9.1.1	General .....	20

9.1.2	Characteristic bending strength .....	21
9.1.3	Bending modulus of elasticity .....	22
9.1.4	Longitudinal direction .....	23
9.1.5	Transverse direction .....	24
9.1.6	Design bending strength .....	24
9.2	Pull through resistance / shear resistance .....	25
9.2.1	Characteristic pull through resistance / shear resistance .....	25
9.2.2	Design pull through resistance / shear resistance .....	25
	Bibliography .....	26
