

# DIN EN 12101-13:2022-11 (E)

Smoke and heat control systems - Part 13: Pressure differential systems (PDS) - Design and calculation methods, installation, acceptance testing, routine testing and maintenance; German Version EN 12101-13:2022

---

<b>Contents</b>		<b>Page</b>
European foreword .....		4
Introduction .....		5
1	Scope .....	6
2	Normative references .....	6
3	Terms and definitions .....	7
4	Design objectives .....	8
4.1	General .....	8
4.2	Protection of means of escape .....	8
4.3	Protection of firefighting routes .....	8
4.4	Property protection .....	8
4.5	Additional functions .....	8
5	Normative requirements .....	9
5.1	General .....	9
5.2	Application of Class 1 and Class 2 .....	10
5.3	Response delay - time period definitions .....	10
5.4	Door opening force .....	12
5.5	Pressure differential systems .....	12
5.6	Pressurization systems .....	14
6	Interaction .....	29
6.1	General .....	29
6.2	Requirements .....	30
7	Equipment and components - specification and installation .....	31
7.1	General .....	31
7.2	Software based fire control systems .....	32
7.3	Automatic control of a PDS .....	32
7.4	Manual control of a PDS .....	32
7.5	Description of components and their requirements .....	34
8	Testing and measuring .....	43
8.1	General .....	43
8.2	Preconditions .....	43
8.3	Tests .....	44
8.4	Minimum number of tests; floor positions and other information .....	45
8.5	Test procedures .....	47
9	Additional considerations for design and testing .....	54
9.1	General .....	54
9.2	Parameters for consideration during design and performance testing .....	54
10	Documentation .....	55
10.1	General .....	55

10.2	Requirements by the authorities having jurisdiction .....	55
10.3	Technical description of the PDS .....	55
10.4	"As built/installed" information .....	55
10.5	Controls .....	56
10.6	Components list (inventory) and datasheets .....	56
10.7	Completion certification .....	57
11	Testing and Maintenance, design changes, faults, routine testing and operation .....	57
11.1	General .....	57
11.2	Records .....	57
11.3	Building design changes .....	58
11.4	Faults .....	58
11.5	Routine testing .....	59
11.6	Maintenance .....	61
Annex A (informative)	Calculation procedures .....	62
Annex B (informative)	Design example and possible calculation procedures .....	81
Annex C (informative)	Further information on wind and temperature effects .....	91
Annex D (informative)	Guidance for PDS design for buildings taller than 60 m .....	94
Annex E (informative)	(Example) PDS drawing .....	99
Annex F (informative)	Documentation and responsibilities in the process .....	100
Annex G (informative)	(Example) PDS concept report .....	103
Annex H (informative)	(Example) PDS test report .....	106
Annex I (informative)	Risk assessment - List of potential disturbances .....	114
Annex J (informative)	Practical suggestions for successful commissioning .....	116
Annex K (normative)	Labelling .....	117
Bibliography	.....	118
