# DIN EN 12101-6:2022-11 (E)

## Smoke and heat control systems - Part 6 : Specification for pressure differential systems - Kits

## Contents

Page

European foreword ....3

Introduction ....4

1 Scope ....5

2 Normative references ....5

3 Terms, definitions, symbols and abbreviated terms ....5

4 Characteristics ....8
4.1 General ....8
4.2 Nominal activation conditions/sensitivity ....9
4.3 Response delay (response time) ....10
4.4 Operational reliability ....11
4.5 Effectiveness of smoke/hot gas extraction (air release/powered air release) ....12
4.6 Performance parameters under fire conditions ....13
4.7 Pressurization performance ....13
4.8 Fire resistance - Integrity (E) ....14
4.9 Fire resistance - Insulation (I) ....15
4.10 Fire resistance - Smoke leakage (S) ....16
4.11 Fire resistance - Mechanical stability ....17
4.12 Fire resistance - Maintenance of cross section ....17
4.13 Durability ....18

5 Test methods ....19
5.1 General ....19
5.2 Nominal activation conditions/sensitivity ....20
5.3 Response delay (response time) ....21
5.4 Operational reliability ....22
5.5 Effectiveness of smoke/hot gas extraction ....32
5.6 Performance parameters under fire conditions ....33
5.7 Pressurization performance ....33
5.8 Fire resistance - Integrity (E) ....34
5.9 Fire resistance - Insulation (I) ....35
5.10 Fire resistance - Smoke leakage (S) ....35
5.11 Fire resistance - Mechanical stability ....36
5.12 Fire resistance - Maintenance of cross section ....37
5.13 Durability ....37

6 Verification of performance ....38
6.1 Type testing ....38
6.2 Factory production control (FPC) ....40

7 Marking, labelling and packaging ....44

Annex A (normative) Pressure differential kit types (pressurization) ....45

Annex B (normative) Test method for hot gas control damper at elevated temperature ....58

**Annex C (normative) Test method for powered smoke and heat exhaust ventilators with frequency inverter and operated with variable speed at elevated temperature ..... 62**

**Annex D (normative) Installation and maintenance document ..... 64**

**Bibliography ..... 65**
