# DIN EN 12616:2023-06 (E)

## Surfaces for sports areas - Test methods for the determination of vertical water infil tration and horizontal water flow rates

## Contents

Page

European foreword ..... 3

1 Scope ..... 4

2 Normative references ..... 4

3 Terms and definitions ..... 4

4 Part 1 - Determination of vertical water infiltration rate ..... 4
4.1 Method A - laboratory determination of synthetic turf, textile and synthetic sports surfaces ..... 4
4.2 Method B - on-site determination on synthetic textile, synthetic turf, and bound mineral sports surfaces ..... 7
4.3 Method C - on-site determination on Natural turf ..... 10
4.4 Method D - on-site determination unbound mineral surfaces ..... 11

5 Part 2 - Determination in the laboratory of horizontal water flow rate ..... 13
5.1 Principle ..... 13
5.2 Apparatus ..... 13
5.3 Test specimens ..... 15
5.4 Conditioning ..... 15
5.5 Procedure ..... 15
5.6 Calculation and expression of results ..... 16
5.7 Test report ..... 17

Annex A (Informative) Sample preparation for the determination in the laboratory of horizontal water flow rate ..... 18
