|-----------------------|---|-------------|
| Foreword .....        |   | iv          |
| Introduction .....    |   | v           |
| 1                     | Scope .....   | 1           |
| 2                     | Normative references .....                                  | 1           |
| 3                     | Terms and definitions .....                                 | 1           |
| 4                     | Principle .....   | 1           |
| 5                     | Apparatus .....   | 2           |
| 5.1                   | Container .....   | 2           |
| 5.2                   | Others .....  | 2           |
| 6                     | Preparation .....   | 2           |
| 6.1                   | Test specimens .....  | 2           |
| 6.2                   | Chemical substance .....                                    | 2           |
| 6.3                   | Ambient conditions .....                                    | 3           |
| 7                     | Procedure .....   | 3           |
| 8                     | Expression of results .....                                 | 3           |
| 9                     | Test report .....   | 4           |
| 9.1                   | Information on the repair material of the test target ..... | 4           |
| 9.1.1                 | General .....   | 4           |
| 9.1.2                 | Other information .....                                     | 4           |
| 9.2                   | Information on the test .....                               | 4           |
| Annex A (informative) | Example test method .....                                   | 5           |
| Bibliography .....    |   | 8           |
