

ISO/TS 19124-1:2023-04 (E)

Geographic information - Calibration and validation of remote sensing data and derived products - Part 1: Fundamentals

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Symbols and abbreviated terms	7
5	Calibration of remote sensing data	10
5.1	Introduction	10
5.2	Relationship between the data calibration and sensor calibration	11
5.3	General framework	11
6	Pre-launch calibration	16
6.1	Introduction	16
6.2	Use of pre-launch calibration results in data calibration	16
7	Post-launch calibration	16
7.1	Goals	16
7.2	General demands	16
7.3	On-board calibration against known sources	17
7.4	Early operations	17
7.5	Intensive calibration and validation	18
8	Calibration reference sources	18
8.1	Introduction	18
8.2	Active optical instruments	18
8.3	Passive optical instruments, visible and NIR, SWIR, MWIR, TIR, and FIR spectrum	19
8.3.1	Introduction	19
8.3.2	On-orbit calibration sources	19
8.3.3	Solar diffusers	19
8.3.4	White light sources	20
8.3.5	Light-emitting diodes (LEDs)	20
8.3.6	Tuneable laser diodes	20
8.3.7	Black bodies	20
8.3.8	Celestial objects	20
8.4	Active microwave instruments	23
8.4.1	Introduction	23
8.4.2	SAR missions	24
8.5	Passive microwave instruments	24
8.6	Instruments with a sensitivity in other regions of the electro-magnetic spectrum	24
8.7	Sound	25
8.8	Calibration and validation sites	25
8.8.1	Introduction	25
8.8.2	Pseudo invariant calibration/validation sites (PICS)	25
8.8.3	Calibration and validation sites	25

9	Calibration methods	26
9.1	Introduction	26
9.2	On-orbit cross-calibration	26
9.3	Vicarious calibration	26
9.4	Sensor performance trending	27
10	Validation of derived products	27
10.1	Validation process	27
10.1.1	General	27
10.1.2	Data	27
10.1.3	Quality check / Homogenization	28
10.1.4	Spatio-temporal co-location	28
10.1.5	Metric calculation	28
10.1.6	Analysis and interpretation	28
10.2	Generic validation process	32
10.3	Data product validation	33
10.4	Maturity of data product validation	33
10.5	Validation planning	34
10.5.1	Phase E1	34
10.5.2	Phase E2 / main validation phase	35
10.5.3	Phase E2 / routine operation validation	35
10.5.4	Phase E2 / data and algorithm evolution	35
10.5.5	Phase F	35
10.6	Recommendations	35
11	The ISO 19124 series	36
11.1	Introduction	36
11.2	Imaging instruments	36
11.2.1	Infrared instruments	36
11.2.2	Ultraviolet, visible and near-infrared instruments	37
11.2.3	Microwave instruments	37
11.3	Non-imaging instruments	37
	Annex A (normative) Abstract test suite	38
	Annex B (normative) Data dictionary	41
	Annex C (informative) Detailed description of calibration and validation (supplementary information for Annex B)	48
	Bibliography	54
