DIN EN 17680:2023-12 (E)

Sustainability of construction works - Evaluation of the potential for sustainable refurbishment of buildings

Contents

Page

European foreword 3

Introduction 4

1 Scope 6

2 Normative references 7

3 Terms and definitions 7
3.1 Terms and definitions 7
3.2 Abbreviations 12

4 Sustainable refurbishment, general principles 13

5 Evaluation of building condition and performance 17
5.1 General process 17
5.2 General procedure 18
5.3 Preparing the evaluation of the existing building 19
5.3.1 Establishing the brief 19
5.3.2 Definition of requirements 19
5.3.3 Execution plan and competence requirements 19
5.3.4 Acquisition and sustainable assessment of building and available building information 19 5.3.5 Assessment criteria and performance classes 19
5.4 Condition registration and analysis 20
5.4.1 Registration of condition and determination of performance classes 20
5.4.2 Determination of performance classes for inaccessible parts 21
5.5 Analysis and evaluation process for sustainable refurbishment 21
5.5.1 Grade classes of consequences for Step 1 and Step 2 21
5.5.2 Evaluating the building -- step 1 22
5.5.3 Sustainable deconstruction -- Step 2 27
5.5.4 Sustainable construction process -- Step 3 28
5.5.5 Commissioning - step 4 28
5.5.6 Sustainable in use - step 5 29

6 Final report 30
6.1 Content of report 30
6.2 Presentation and communication of results 32

Annex A (informative) Example of classification of indicators in performance and performance classes, from 0 - 3 33
