Fire safety engineering - Requirements governing algebraic formulae - Part 5: Vent flows

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Requirements governing the description of physical phenomena 2

5 Requirements governing the calculation process 2

6 Requirements governing limitations 2

7 Requirements governing input parameters 2

8 Requirements governing the domain of applicability 3

9 Example of documentation 3

Annex A (informative) Formulae for vent flows 4

Annex B (informative) Examples of flow coefficient values 39

Bibliography 42
