Life cycle management of concrete st ructures - Part 2: Structural planning and design stage

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Life cycle management at the structural planning stage 2
4.1 General 2
4.2 Planning and performance requirements of structures 2
4.3 Basic LCM scenario 3
4.4 Determination of structural concept 4

5 Life cycle management at the structural design stage 5
5.1 General 5
5.2 Management items 6
5.2.1 Design actions 6
5.2.2 Assumptions and methods in structural analysis 6
5.2.3 Material properties 6
5.2.4 Performance verification 6
5.2.5 Assessment of sustainability indicators 7
5.2.6 Maintenance programme 7
5.2.7 Management/demolition program after the end-of-life stage 7
5.3 Feedback to structural planning stage 7
