DIN EN 17940:2025-05 (E)

Glass in building - Folio interlayers for the manufacturing of laminated glass

Contents

Page

European foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 General 5

5 Properties of folios before processing 5
5.1 Dimensions 5
5.1.1 Length and width 5
5.1.2 Thickness 5
5.2 Appearance 6
5.2.1 General 6
5.2.2 Methods of observation and measurement 6
5.3 Interlayer stiffness properties 7
5.4 Safety in the case of fire (cf. Reaction to fire EN 13501-1) 7
5.5 Thermal and other physical properties 7

6 Properties of folios after lamination 8
6.1 General 8
6.2 Adhesion 8
6.3 Resistance to radiation 9
6.4 Spectral properties and other optical properties 9
6.5 Acoustic properties 9

Annex A (informative) Documentation 11

Annex B (informative) Considerations for optimizing accuracy in determination of luminous and solar properties of folio interlayers 13
