

ISO/TR 15655:2003-04 (E)

Fire resistance - Tests for thermo-physical and mechanical properties of structural materials at elevated temperatures for fire engineering design

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Tests for thermal properties at elevated temperatures	3
2.1	Metals	3
2.2	Concrete	6
2.3	Masonry	10
2.4	Wood	13
2.5	Plastics, fibre reinforcement, organic and inorganic materials	16
2.6	Adhesives	19
3	Tests for mechanical properties at elevated temperatures	21
3.1	Metals	21
3.2	Concrete	27
3.3	Masonry	29
3.4	Wood	33
3.5	Plastics, fibre reinforcement, organic and inorganic materials	35
3.6	Adhesives	38
