

DIN EN 14081-1:2006-03 (E)

Timber structures - Strength graded structural timber with rectangular cross section - Part 1: General requirements

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	6
4	Symbols	7
5	Requirements	7
5.1	Grading, general	7
5.2	Visual strength grading	8
5.3	Machine strength grading	8
5.4	Durability against biological attack	10
5.5	Reaction to fire	10
6	Evaluation of conformity	10
6.1	General	10
6.2	Initial type testing and assessment	10
6.3	Factory production control (FPC)	12
7	Marking	13
7.1	General	13
7.2	Information on the product (except if omitted for aesthetic reasons)	13
7.3	Information either on the product (except if omitted for aesthetic reasons) or in accompanying documentation	13
Annex A (normative)	Requirements for strength reducing characteristics for visual grading standards	16
A.1	Limitations for strength-reducing characteristics	16
A.2	Limitations for geometrical characteristics	17
A.3	Limitations for biological characteristics	18
A.4	Other characteristics	18
Annex B (informative)	Marking codes for single species	19
Annex C (normative)	Reaction to fire: Euroclass without the need for further testing	21
Annex ZA (informative)	Clauses of this European Standard addressing the provisions of the EU Construction Products Directive	22
ZA.1	Scope and relevant characteristics	22
ZA.2	Procedure for attestation of conformity of strength graded structural timber with rectangular cross section	23
ZA.3	Marking	26
