Precast concrete products - Floor plates for floor systems (includes Corrigendum AC:2006)

Contents		Page
<p>The numbering of clauses is strictly related to EN 13369:2004 Common rules for precast concrete products, at least for the first three digits. When a clause of EN 13369:2004 is not relevant or included in a more general reference of this standard, its number is omitted and this may result in a gap on numbering. Foreword</p>
