

DIN EN ISO 19112:2005-05 (E)

Geographic information - Spatial referencing by geographic identifiers (ISO 19112:2003); English version EN ISO 19112:2005

Contents

Page

Foreword	3
Introduction	4
1 Scope.....	5
2 Conformance	5
3 Normative references	5
4 Terms and definitions.....	6
5 Notation.....	6
5.1 Unified Modelling Language (UML).....	6
5.2 Attribute tables.....	8
6 Concepts of spatial referencing using geographic identifiers.....	8
6.1 Spatial referencing using geographic identifiers	8
6.2 Spatial reference systems using geographic identifiers	9
6.3 Gazetteers	9
7 Requirements for spatial reference systems using geographic identifiers.....	10
7.1 Attributes of a spatial reference system using geographic identifiers	10
7.2 Attributes of a location type.....	11
8 Requirements for gazetteers.....	13
8.1 Properties of a gazetteer	13
8.2 Attributes of location instance	14
Annex A (normative) Abstract test suites	17
Annex B (informative) Example spatial reference system using geographic identifiers.....	19
Annex C (informative) Examples of gazetteer data	20
Bibliography	23
