## Fire resistance tests - Fire dampers for air distribution systems - Part 5: Intumescent fire dampers

---

| <b>Contents</b>                                                                                                           | <b>Page</b> |
|---------------------------------------------------------------------------------------------------------------------------|-------------|
| Foreword .....                                                                                                            | iv          |
| 1 <b>Scope</b> .....                                                                                                      | 1           |
| 2 <b>Normative references</b> .....                                                                                       | 1           |
| 3 <b>Terms and definitions</b> .....                                                                                      | 2           |
| 4 <b>Procedure</b> .....                                                                                                  | 2           |
| 5 <b>Test report</b> .....                                                                                                | 7           |
| <b>Annex A (normative) Durability</b> .....                                                                               | 9           |
| <b>Annex B (informative) Test apparatus</b> .....                                                                         | 10          |
| <b>Annex C (informative) The use and application of intumescent fire dampers in ducted air distribution systems</b> ..... | 18          |
