

DIN EN 15434:2006-08 (E)

Glass in building - Product standard for structural and/or ultra-violet resistant sealant (for use with structural sealant glazing and/or insulating glass units with exposed seals)

Contents		Page
Foreword		5
1	Scope	6
2	Normative references	6
3	Terms and definitions	7
4	Sealant	8
4.1	General	8
4.2	The compulsory part of the product description	8
5	Requirements	9
5.1	General	9
5.1.1	Identification - performances	9
5.1.2	Application	9
5.2	Identification tests	9
5.2.1	General	9
5.2.2	Thermogravimetric analysis	10
5.2.3	Specific gravity	10
5.2.4	Shore A hardness	10
5.2.5	Change in volume or shrinkage	10
5.2.6	Infrared spectrometer analysis	11
5.3	Intrinsic properties	11
5.3.1	General	11
5.3.2	Standard substrates and test pieces	11
5.3.3	Tensile	12
5.3.4	Shear at 23 °C	13
5.3.5	Elastic recovery	13
5.3.6	Tear strength	14
5.3.7	Mechanical cyclic load	15
5.3.8	Displacement under permanent shear load (creep test)	16
5.3.9	Elastic modulus of the sealant	19
5.4	Environmental influences	19
5.4.1	General	19
5.4.2	Determination of cohesion/adhesion properties after exposure to artificial light through glass and to water	19
5.4.3	Salt spray	21
5.4.4	SO ₂ atmosphere	21
5.4.5	Façade cleaning products	22
5.4.6	High temperature	22
5.5	Water vapour transmission and gas transmission	22
5.6	Reaction to fire	22
5.7	Dangerous substances	23
5.8	Thin layer outer seal of insulating glass unit category differentiation"	23
6	Sealing and bonding	23
7	Compatibility with adjacent material	23

8	Evaluation of conformity	28
8.1	General or scope	28
8.2	Requirements	28
8.2.1	Product description	28
8.2.2	Conformity with the definition of sealant	28
8.2.3	Determination of the characteristic's performances	28
8.2.4	Durability	29
8.2.5	Dangerous substances	30
8.3	Evaluation of conformity	30
8.3.1	General	30
8.3.2	Initial type testing of the product (see Clause 5)	30
8.3.3	General	30
8.4	Factory production control and inspection of samples in accordance with a prescribed test plan (8.3.1.1, 1 a) and 1 b))	32
8.4.1	General	32
8.4.2	Initial inspection of factory and of factory production control (8.3.1.1 1 b))	32
8.4.3	Continuous surveillance and assessment of the factory production control (see 8.3.1.1 1 c))	33
9	Marking and/or labelling	34
9.1	General	34
9.2	Labelling	34
9.3	Product marking	34
9.4	Product characteristics	34
9.5	"Characteristics/performance identification paper"	34
Annex A (normative) Evaluation of tests results		36
A.1	Evaluation of the characteristic values $R_{u,5}$	36
A.2	Evaluation of the rigidity modulus at the origin	37
A.3	Secant modulus, tangent modulus and shear modulus	37
A.4	Stiffness	39
Annex B (normative) Shear at 23 °C: Test method		43
Annex C (normative) Factory production control		45
C.1	Factory Production Control requirements	45
C.1.1	General	45
C.1.2	Organisation	45
C.1.3	Control system	45
C.2	Marking	46
C.3	Inspection and testing tables of Sealants production	46
C.3.1	Information on Tables C.1	46
C.3.2	Use of proxy testing	47
Annex D (normative) Thin layer outer seal of insulating glass category differentiation		50
D.1	General	50
D.2	Test specimens and test samples	50
D.2.1	Test specimen description (see Figure D.1)	50
D.2.2	Number of test specimen	51
D.2.3	Conditioning	51
D.3	Dynamic shear testing	52
D.4	Record	52
D.5	Specifications and category differentiation	52
Annex E (normative) Formation of bubbles		54
E.1	Purpose of the test	54
E.2	Test specimen description and conditioning	54

E.3	Record and evaluation	54
	Annex F (informative) Sealing, structural bonding and UV resistance schematic illustrations	56
	Annex G (normative) Initial testing of bonding of sealant to non- glass substrates	59
G.1	Bonding to coated surfaces of coated glass	59
G.2	Metals	59
G.3	Test specimens	59
G.4	Description of the material	59
G.5	Mechanical strength and adhesion: initial testing	59
G.6	Test report	60
G.7	Initial testing of specific projects	60
	Annex V (informative) Provisions for voluntary involvement of third party(ies)	61
V.1	General	61
V.2	Voluntary tasks for third parties	61
V.3	Marking and labelling	61
	Bibliography	62
