DIN EN 1051-2:2007-12 (E)

Glass in building - Glass blocks and glass pavers - Part 2: Evaluation of conformity/Product standard

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Requirements 6
4.1 Conformity with the product family glass blocks and glass paver units 6
4.2 Determination of the performances of characteristics 6
4.2.1 Characteristics of glass blocks and glass paver units 6
4.2.2 Determination of essential characteristics of glass blocks and glass paver units 7
4.3 Durability 9
4.4 Characteristics other than those listed in 4.2 9
4.5 Dangerous substances 9

5 Evaluation of conformity 10
5.1 General 10
5.2 Initial type testing of the product (5.1, 2) 10
5.2.1 General 10
5.2.2 Type testing if products belong to the product family glass blocks and glass paver units 11
5.2.3 Type testing of performances of characteristics 11
5.3 Factory production control and inspection of samples in accordance with a prescribed test plan (5.1, 1a and 1.b) 12
5.4 Initial inspection of factory and of factory production control (5.1, 1b) 12
5.5 Continuous surveillance and assessment of the factory production control (5.1, 1c) 13

6 Marking and labelling 13
6.1 General 13
6.2 Product marking 13
6.3 Product characteristics 13
6.4 "Characteristics/performance identification paper" 13

Annex A (normative) Factory production control 15

A.1 Factory Production Control Requirements 15
A.1.1 General 15
A.1.2 Organisation 15
A.1.3 Control system 15
A.2 Marking 16
A.3 Inspection and testing tables of glass blocks and glass paver unit production 16
A.3.1 Information on Table A.1 16
A.3.2 Use of proxy testing 17

Annex B (normative) Residual stress/Thermal shock 20

B.1 Requirement 20
B.2 Test method 20
B.2.1 General 20
B.2.2 Factory production control 20

B.2.3 On-going evaluation of conformity 20
B.3 Evaluation of test results 21
B.3.1 Factory production control 21
B.3.2 On-going evaluation of conformity 21

Annex C (normative) Determination of the thermal transmittance (U-value) of glass blocks and glass paver units 22

C.1 General 22
C.2 Massive glass blocks and glass paver units 22
C.3 Hermetic closed hollow glass blocks and glass paver units 22

Annex D (normative) Modelling of glass blocks and glass paver units for the determination of the light transmittance, light reflectance and solar energy characteristics 24

Annex E (normative) Compression strength test method, sampling, requirements and evaluation in factory production control 25

E.1 Glass blocks 25
E.1.1 Test equipment and procedure 25
E.1.2 Test specimen preparation 25
E.2 Glass paver units 26
E.2.1 Test equipment and procedure 26
E.2.2 Test specimen preparation 27
E.3 Requirements 27
E.3.1 Glass blocks 27
E.3.2 Glass paver units 27
E.4 Evaluation 27

Annex F (informative) Provisions for voluntary involvement of third party(ies) 28

F.1 General 28
F.2 Voluntary tasks for third parties 28
F.3 Marking and labelling 28

Annex ZA (informative) Clauses of this European Standard addressing the provisions of EU Construction Products Directive 29

ZA.1 Scope and relevant characteristics 29

ZA.2 Procedure(s) for the attestation of conformity of basic soda lime silicate glass products 31

ZA.2.1 System(s) of attestation of conformity 31

ZA.2.2 EC Certificate and Declaration of conformity 33

ZA.3 CE marking and labelling 34
