## Rigid cellular plastics - Spray-applied polyurethane foam for thermal insulation - Part 2: Application

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Requirements .....	3
4.1	Manufacturer .....	3
4.2	Spray polyurethane foam contractor .....	3
4.3	Spray polyurethane foam installer .....	4
4.4	Apprentice installer .....	6
4.5	Material .....	6
4.6	Equipment .....	6
4.7	Installation .....	6
5	Applications .....	8
5.1	General .....	8
5.2	Air barrier system application .....	8
5.3	Vapour barrier application .....	8
5.4	Exterior foundation insulation application .....	8
5.5	Interior foundation insulation application .....	8
5.6	Cathedral ceilings, flat ceilings and decks over heated spaces .....	8
5.7	Attic application, exterior (cavity) and interior wall application .....	8
6	Sampling .....	8
7	Test methods .....	9
7.1	Determination of density .....	9
7.2	Cohesion and adhesion test .....	10
7.3	Verification of substrate (application surface) preparation .....	10
7.4	Reporting requirements .....	10
8	Manufacturer's marking .....	11
9	Manufacturer's documentation .....	12
10	Limitations .....	12
Annex A (normative) Substrate preparation .....		13
Annex B (normative) Selection of chemical components (system) .....		16
Annex C (informative) Climatic factors .....		17
Annex D (normative) Job-site set up .....		18
Annex E (informative) Trouble shooting and repair .....		20

<b>Annex F (normative) Handling and safety precautions .....</b>	<b>22</b>
<b>Annex G (normative) Disposal and detoxification of drums .....</b>	<b>25</b>
<b>Annex H (informative) Daily work record .....</b>	<b>27</b>
<b>Annex I (informative) Example of job site label .....</b>	<b>29</b>
<b>Annex J (informative) Outline of licensed installer training programme .....</b>	<b>30</b>
<b>Annex K (normative) Minimum equipment for site test kit .....</b>	<b>36</b>
<b>Bibliography .....</b>	<b>37</b>
