DIN EN 10245-4:2012-01 (E)

Steel wire and wire products - Organic coatings on steel wire - Part 4: Polyester coated wire

Contents

Page

Foreword 3

Introduction 4

1 Scope 4

2 Normative references 5

3 Terms and definitions 6

4 Methods of application of polyester coatings 6

5 Requirements and testing methods for polyester coating material 6
5.1 General 6
5.2 Composition and method of application 6
5.3 Consistency 6
5.4 Density 7
5.5 Hardness 7
5.6 Tensile strength 7
5.7 Elongation 7

6 Requirements and test methods for polyester coating on wire and wire products 7
6.1 General 7
6.2 Appearance 7
6.3 Colour 8
6.4 Gloss 8
6.5 Thickness 8
6.6 Elongation 8
6.7 Concentricity 8
6.8 Adherence 8

7 Performance requirements and tests for the polyester coating on the finished wire and wire products 9
7.1 General 9
7.2 Colour stability (accelerated weathering) 9
7.3 Kesternich test 9
7.4 Boiling water test 10

8 Retests 10

9 Inspection and quality assurance 10
