ISO 4344:2022-12 (E)

Steel wire ropes for lifts - Minimum requirements

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Requirements 2
4.1 Material 2
4.1.1 Wire 2
4.1.2 Core 2
4.1.3 Lubricant 3
4.2 Rope manufacture 3
4.2.1 General 3
4.2.2 Wire joints 4
4.2.3 Fibre core joints 4
4.2.4 Lubrication 4
4.2.5 Preformation and postformation 4
4.2.6 Prestretching load limit 4
4.2.7 Rope ends 4
4.2.8 Rope construction 4
4.2.9 Rope grade 5
4.2.10 Type and direction of lay 5
4.2.11 Lay length 6
4.3 Designation and classification 6
4.4 Dimensions 6
4.4.1 Diameter 6
4.4.2 Length 7
4.5 Minimum breaking force 7
4.6 Wire tensile strength 8
4.7 Rope stretch 8

5 Verificationofrequirementsandtestmethods 8
5.1 Materials 8
5.2 Test on rope for diameter 8
5.2.1 Equipment 8
5.2.2 Measured diameter 8
5.2.3 Ovality 9
5.2.4 Variation 9
5.3 Test on rope for breaking force 9
5.4 Test on rope for lubricant content 9
5.5 Test on rope for wire tensile strength 9
5.6 Additional test 9

6 Sampling and acceptance criteria 9

7 Information for use 9
7.1 Certificate 9
7.1.1 General 9

7.1.2 Test results 10
7.2 Information for selection, installation, maintenance 10
7.3 Discard criteria 10
7.4 Marking 10
7.5 Information recommended to be provided for an enquiry or an order 10

Annex A (normative)Determinationoflubricantcontent:gravimetricmethod 11

Annex B (normative) Tables of minimum breaking force values for the more common classes, diameters and grade of ropes 14

Annex C (normative) Calculation of minimum breaking force 26

Annex D (informative) Calculation of approximate rope length mass, nominal metallic cross-sectional area and approximate outer wire size 27

Annex E (informative)Determinationofconstructionstretchandelasticstretch 28

Annex F (informative) Information for selection, storage, transportation, installation and maintenance for lift ropes 30

Annex G (normative) Discard criteria for lift ropes 32

Annex H (informative)Informationrecommendedtobeprovidedwithanenquiryororder 34
