ISO/TS 11080:2009-06 (E)

Dentistry - Essential charac teristics of test methods for the evaluation of treatment methods intended to improve or maintain the microbiological quality of dental unit procedural water

Contents

Page

Foreword iv

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Dental unit water treatment methods 2

5 Test methods 2
5.1 General 2
5.2 Test methods for evaluating biofilm removal 3
5.3 Test methods for evaluating biofilm prevention or inhibition 4

6 Test apparatus design and operation 5
6.1 Test apparatus design 5
6.2 Test apparatus operation 5

7 Microbiological challenge 5
7.1 Microbiological consortium 5
7.2 Microbiological characteristics 5

8 Chemical characteristics of water used for testing 6
8.1 Water type 6
8.2 Water characteristics 7

9 Microbiological sampling and testing 7
9.1 Sampling 7
9.2 Testing 7
9.3 Corroborative testing 7
9.4 Measures for residual antimicrobial agents 8

10 Test report 8

Bibliography 9
