Dentistry - Guidance on colour measurement

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Visual and instrumental colour assessment		3
4.1 Devices		3
4.2 Setting		3
5 Observers		5
5.1 Evaluation of colour competency of candidate for observer in studies on acceptability or perceptibility in dentistry		5
5.2 Guidelines for observer selected for acceptability or perceptibility evaluation in dentistry		5
6 Testing of acceptability and perceptibility thresholds		6
6.1 Materials to be tested for perceptibility and acceptability thresholds		6
6.2 Test methods		6
7 Application and interpretation		6
7.1 Colour compatibility		6
7.2 Colour stability		7
7.3 Colour interactions		7
8 Reporting of colour and colour difference assessment		7
8.1 Illuminant		8
8.2 Object		8
8.3 Observer/Instrument		8
Bibliography		10
