

DIN EN ISO 12836:2013-01 (E)

Dentistry - Digitizing devices for CAD/CAM systems for indirect dental restorations - Test methods for assessing accuracy (ISO 12836:2012)

Contents		Page
Foreword		3
Introduction		4
1 Scope		5
2 Normative references		5
3 Terms and definitions		5
4 Requirements		8
4.1 General		8
4.2 Accuracy		8
5 Test methods		8
5.1 General		8
5.2 Test conditions		8
5.3 Accuracy		9
6 Test report		9
Annex A (normative) Inlay-shaped specimen		10
A.1 General		10
A.2 Principle		10
A.3 Apparatus		10
A.4 Preparation of test specimen		10
A.5 Test procedure		12
A.6 Assessment		13
Annex B (normative) Crown- and bridge-shaped specimens		14
B.1 General		14
B.2 Principle		14
B.3 Apparatus		14
B.4 Preparation of test specimen		14
B.5 Test procedure		17
B.6 Assessment		17
Annex C (normative) Sphere		18
C.1 General		18
C.2 Principle		18
C.3 Apparatus		18
C.4 Geometry, dimensions and tolerances of test specimen		18
C.5 Test procedure		19
C.6 Assessment		19
