Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Film and packet classifications 5
4.1 Film speed groups 5
4.2 Film size numbers 5
4.3 Packet dimensions 5

5 Requirements 6
5.1 Symbols 6
5.2 Film requirements 6
5.2.1 Film type 6
5.2.2 Film corner dimensions 6
5.2.3 Film thickness 7
5.2.4 Film safelight sensitivity 7
5.2.5 Film identification of the radiation side of the processed film 8
5.2.6 Sensitometric properties of the film 8
5.2.7 Base plus fog density at the point of manufacture 8
5.2.8 Film expiry date 8
5.3 Packet requirements 8
5.3.1 General 8
5.3.2 Packet width and length 9
5.3.3 Packet thickness 9
5.3.4 Moisture protection 9

6 Sampling, inspection and testing 9
6.1 Sampling 9
6.2 Inspection 9
6.3 Testing 9
6.3.1 Base plus fog density, film speed and average gradient 9
6.3.2 Size numbers 9
6.3.3 Squareness and edge straightness 10
6.3.4 Uniformity 10
6.3.5 Safelight sensitivity 10
6.3.6 Film packets and lead foil dimensions 10

7 Marking and instructions for use 10
7.1 Data on packet 10
7.2 Data on package 11
7.3 Instructions for use 12
7.4 Compliance 12
