Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Requirements 5
4.1 Freedom from leakage of anaesthetic solution 5
4.2 Force needed for plunger movement 6
4.3 Size of air bubble 6
4.4 Biocompatibility 6
4.5 Extractable volume 6
4.6 External dimensions of the assembled cartridge 6
4.7 Colour coding 6

5 Test methods 8
5.1 Sampling 8
5.2 Test conditions 8
5.3 Visual inspection 8
5.4 Cartridge leakage 8
5.5 Force needed for plunger movement 9
5.6 Size of air bubble 10
5.7 Extractable volume 11

6 Marking 11
6.1 Primary container 11
6.2 Secondary container 11
