## Dentistry - Compatibility testing - Part 2: Ceramic-ceramic systems

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Requirements .....	1
4.1	Biocompatibility .....	1
4.2	Physical properties .....	2
4.2.1	General .....	2
4.2.2	Thermal expansion .....	2
4.2.3	De-bonding/crack-initiation test (zirconia-porcelain only) .....	2
4.2.4	Thermal shock resistance .....	2
5	Sampling .....	2
5.1	Substructure dental ceramic .....	2
5.2	Dental porcelain .....	2
6	Test methods .....	2
6.1	Linear thermal expansion .....	2
6.2	Glass transition temperature .....	2
6.3	De-bonding/crack-initiation test (zirconia-porcelain only) .....	3
6.3.1	Preparation of test specimens .....	3
6.3.2	Determination of fracture force .....	3
6.3.3	Test report .....	5
6.4	Thermal shock testing .....	5
6.4.1	General .....	5
6.4.2	Thermocycling test with fixed temperature interval .....	5
6.4.3	Thermocycling test with increasing temperature interval .....	6
7	Test report .....	7
Bibliography .....		9
