

ISO 28399:2021 (E)

Dentistry — External tooth bleaching products

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Classification
4.1	General
4.2	Products for professional application
4.3	Products for consumer application
5	Requirements
5.1	Concentration of active ingredients for bleaching
5.2	Surface microhardness
5.3	Surface erosion
6	Measurements and test methods
6.1	Preparation of tooth specimens
6.2	Preparation and application of tooth bleaching product
6.3	Surface microhardness
7	Packaging, marking and information to be supplied by the manufacturer
7.1	General
7.2	Packaging
7.3	Marking and instructions for use
Annex A	(informative) Test method for the measurement of hydrogen peroxide concentration
A.1	Principle
A.2	Test condition
A.3	Procedure (modified thiosulfate titration method, USP[7])
Annex B	(informative) Light microscopy method for measuring erosion of enamel and dentine caused by external tooth bleaching products
B.1	Principle
B.2	Test condition
B.3	Apparatus and materials
B.3.1	Apparatus
B.3.2	Materials
B.4	Standard reference erosion controls
B.4.1	Negative control
B.4.2	Positive control and standard reference solution
B.5	Specimen preparation
B.5.1	General
B.5.2	Cutting an enamel slab from molar teeth (see Figure B.2)
B.5.3	Cutting an enamel slab from incisor teeth (see Figure B.3)
B.5.4	Cutting the dentine slab from incisor, premolar teeth or molar teeth
B.5.5	Mounting the specimens and exposing fresh enamel or dentine surfaces
B.6	Erosion of enamel and dentine
B.6.1	Application of bleaching products
B.6.2	Controls and standard reference solution treatments

- B.6.2.1 Positive control and standard reference solution treatments
- B.6.2.2 Negative control treatments
- B.7 Specimen cleaning after the erosion challenge is completed
- B.7.1 Cleansing steps
- B.7.2 Coating the exposed surface
- B.8 Cutting specimen cross sections
- B.8.1 Mounting the specimen in the clamp
- B.8.2 Positioning the specimen
- B.8.3 Cutting the specimen
- B.8.4 Removing the sections
- B.8.5 Attaching the sections on the glass slide
- B.9 Microphotography measurement method
- B.9.1 Procedure
- B.10 Evaluation using digital imaging software
- B.10.1 Set measurement scale
- B.10.2 Sample measurement

Annex C (informative) Test method for laboratory assessment of tooth bleaching efficacy

- C.1 Principle
- C.2 Materials, equipment and evaluation condition
- C.3 Procedures
 - C.3.1 Specimen preparation
 - C.3.2 Bleaching treatment
 - C.3.3 Bleaching efficacy assessment
 - C.3.3.1 General
 - C.3.3.2 Visual assessment with shade guide
 - C.3.3.3 Tooth colour measurement using an electronic instrument
- C.4 Analyses of data
 - C.4.1 Data obtained from visual assessment with a shade guide
 - C.4.2 Data obtained from electronic instrument
