## Dentistry - Digital impression devices - Part 2: Methods for assessing accuracy for implanted devices

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
|                 | <b>Foreword</b> .....                      | <b>v</b>    |
|                 | <b>Introduction</b> .....                  | <b>vi</b>   |
| <b>1</b>        | <b>Scope</b> .....                         | <b>1</b>    |
| <b>2</b>        | <b>Normative references</b> .....          | <b>1</b>    |
| <b>3</b>        | <b>Terms and definitions</b> .....         | <b>1</b>    |
| <b>4</b>        | <b>Literature review</b> .....             | <b>3</b>    |
| <b>5</b>        | <b>Assessment of accuracy</b> .....        | <b>3</b>    |
| 5.1             | General.....                               | 3           |
| 5.1.1           | Clinical quality.....                      | 3           |
| 5.1.2           | Sources of uncertainty.....                | 4           |
| 5.1.3           | Auxiliary methods.....                     | 4           |
| 5.2             | Accuracy.....                              | 4           |
| 5.2.1           | General.....                               | 4           |
| 5.2.2           | Trueness.....                              | 4           |
| 5.2.3           | Precision.....                             | 5           |
| 5.2.4           | External reliability.....                  | 5           |
| 5.3             | Test objects.....                          | 5           |
| 5.3.1           | General.....                               | 5           |
| 5.3.2           | Single implant.....                        | 5           |
| 5.3.3           | Multiple implants.....                     | 5           |
| 5.4             | Reference measurement of test objects..... | 6           |
| 5.4.1           | Calibrated measures of interest.....       | 6           |
| 5.4.2           | Independent scanning device.....           | 6           |
| 5.5             | Auxiliary devices.....                     | 6           |
| 5.5.1           | General.....                               | 6           |
| 5.5.2           | Calliper measurement.....                  | 6           |
| 5.5.3           | Extra-oral photogrammetry.....             | 6           |
| <b>6</b>        | <b>Accuracy assessment methods</b> .....   | <b>7</b>    |
| 6.1             | Measures of interest.....                  | 7           |
| 6.1.1           | General.....                               | 7           |
| 6.1.2           | Position of interest.....                  | 7           |
| 6.2             | Assessment of trueness.....                | 7           |
| 6.2.1           | Single implant.....                        | 7           |
| 6.2.2           | Multiple implants.....                     | 7           |
| 6.3             | Assessment of precision.....               | 8           |
| 6.3.1           | Repeated scanning procedures.....          | 8           |
| 6.3.2           | Design analysis.....                       | 8           |
| 6.4             | Expression of accuracy.....                | 8           |
| 6.5             | Assessment of reliability.....             | 8           |
| <b>7</b>        | <b>Test report</b> .....                   | <b>9</b>    |
| 7.1             | General.....                               | 9           |
| 7.2             | Device.....                                | 9           |
| 7.3             | Test object.....                           | 9           |
| 7.4             | Test method.....                           | 10          |
| 7.5             | Test results.....                          | 10          |
| 7.6             | Test data.....                             | 10          |

**Annex A (Informative) Scan body for accuracy assessment..... 11**  
**Annex B (informative) Test object — Single implant..... 13**  
**Annex C (informative) Test object — Multiple implants ..... 16**  
**Annex D (informative) Guidance on evaluating precision and external reliability..... 18**  
**Bibliography..... 22**
