|--------------------------------------------------------------------------|-----------|
| Foreword.....                                                            | iv        |
| <b>▣</b> Foreword to Amendment 1 <b>▣</b> .....                          | v         |
| Introduction.....                                                        | vi        |
| <b>1 Scope.....</b>                                                      | <b>1</b>  |
| <b>2 Normative references.....</b>                                       | <b>1</b>  |
| <b>3 Terms and definitions.....</b>                                      | <b>1</b>  |
| <b>4 Measurement and test methods.....</b>                               | <b>2</b>  |
| 4.1 General.....                                                         | 2         |
| 4.2 Ambient conditions.....                                              | 2         |
| 4.3 Measurements.....                                                    | 2         |
| <b>5 Measurement of single characteristics.....</b>                      | <b>2</b>  |
| 5.1 Measuring instrument.....                                            | 2         |
| 5.2 Shape of the working part.....                                       | 2         |
| 5.3 Diameter of the working part.....                                    | 2         |
| 5.3.1 Location of measurement points.....                                | 2         |
| 5.3.2 Procedure.....                                                     | 3         |
| 5.3.3 Evaluation of test results.....                                    | 3         |
| 5.4 Neck diameter.....                                                   | 3         |
| 5.4.1 Location of measurement points.....                                | 3         |
| 5.4.2 Procedure.....                                                     | 3         |
| 5.5 <b>▣</b> Dimensions of shanks <b>▣</b> .....                         | 3         |
| 5.6 Dimensions of mandrels.....                                          | 4         |
| 5.7 Length of working part.....                                          | 4         |
| 5.7.1 Location of measurement points.....                                | 4         |
| 5.7.2 Procedure.....                                                     | 4         |
| 5.8 Overall length.....                                                  | 4         |
| 5.8.1 Location of measurement points.....                                | 4         |
| 5.8.2 Procedure.....                                                     | 4         |
| 5.9 Angle of taper of working part.....                                  | 4         |
| 5.9.1 Location of measurement points.....                                | 4         |
| 5.9.2 Procedure.....                                                     | 4         |
| 5.10 Run-out of the working part.....                                    | 5         |
| 5.10.1 Apparatus.....                                                    | 5         |
| 5.10.2 Location of measurement points.....                               | 6         |
| 5.10.3 Procedure.....                                                    | 6         |
| 5.11 Neck strength test.....                                             | 6         |
| 5.11.1 Apparatus.....                                                    | 6         |
| 5.11.2 Test force.....                                                   | 7         |
| 5.11.3 Procedure.....                                                    | 7         |
| 5.11.4 Calculation of test force for neck strength.....                  | 7         |
| 5.11.5 Evaluation.....                                                   | 8         |
| 5.12 Surface roughness.....                                              | 8         |
| <b>6 Test report.....</b>                                                | <b>9</b>  |
| <b>Annex A (informative) Deduction of the neck strength formula.....</b> | <b>10</b> |
