Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **2**

4 Requirements **2**

4.1 Optical requirements 2

4.1.1 General 2

4.1.2 Adjustable level of illuminance 2

4.1.3 Illumination pattern 2

4.1.4 Illuminance in patient's eyes 4

4.1.5 Chromatic uniformity 4

4.1.6 Chromaticity and correlated colour temperature 4

4.1.7 Shadow 5

4.1.8 Colour fidelity 5

4.1.9 Actinic UV hazard exposure for the skin and eye 6

4.1.10 Near-UV hazard exposure for the eye 6

4.1.11 Retinal blue light hazard exposure 6

4.1.12 Single fault condition for photobiological safety 6

4.1.13 Irradiance (300 nm to 2 500 nm) 6

4.1.14 Compatibility with light-activated restorative materials 7

4.2 Mechanical requirements 7

4.2.1 Operating controls 7

4.2.2 Rotational positioning 7

4.2.3 Stability after positioning 7

4.2.4 Expelled parts 7

4.3 Processing 7

4.4 Electrical requirements 8

4.5 Usability 8

5 Sampling **8**

6 Testing **8**

6.1 General 8

6.2 Visual inspection 8

6.3 Optical tests 8

6.3.1 Test set-up 8

6.3.2 Level of illuminance and illuminance pattern 9

6.3.3 Illuminance uniformity 9

6.3.4 Illuminance in the patient’s eyes 9

6.3.5 Chromatic uniformity 9

6.3.6 Chromaticity and correlated colour temperature 10

6.3.7 Shadow 10

6.3.8 Colour fidelity 11

6.3.9 Actinic UV hazard exposure for the skin and eye 11

6.3.10 Near-UV hazard exposure for the eye 12

6.3.11 Retinal blue light hazard exposure 12

6.3.12 Irradiance (300 nm to 2 500 nm) 14

6.3.13 Compatibility with light-activated restorative materials 14

7 Manufacturer's instructions **14**
7.1 Documents 14
7.2 Instructions for use 14
7.3 Technical description 15
8 Packaging **15**
8.1 General 15
8.2 Identification 15
9 Marking **15**
9.1 Marking on the outside of operating lights 15
9.2 Graphical symbols 16
Annex A (informative) **Additional information for retinal blue light hazard exposure test method** **17**
Annex B (normative) **Normalized absorbance of camphorquinone** **22**
Bibliography **25**
