|------------------------------------------------------------------------------|-----------|
| Foreword.....                                                                | iv        |
| <b>1 Scope.....</b>                                                          | <b>1</b>  |
| <b>2 Normative references .....</b>                                          | <b>1</b>  |
| <b>3 Terms and definitions.....</b>                                          | <b>1</b>  |
| <b>4 Classification according to the supply of water, air and light.....</b> | <b>2</b>  |
| <b>5 Requirements.....</b>                                                   | <b>2</b>  |
| 5.1 General.....                                                             | 2         |
| 5.2 Dimensions .....                                                         | 2         |
| 5.3 Coupling force.....                                                      | 16        |
| <b>6 Sampling.....</b>                                                       | <b>16</b> |
| <b>7 Test methods.....</b>                                                   | <b>16</b> |
| 7.1 Dimensions .....                                                         | 16        |
| 7.2 Coupling force.....                                                      | 16        |
