Foreword 2

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Classification 5

5 Requirements 5
5.1 General 5
5.2 Ceramic teeth 6
5.3 Synthetic polymer teeth 6

6 Sampling 6

7 Inspection and test methods 7
7.1 Visual inspection 7
7.2 Dimensions of teeth 7
7.3 Comparison with shade guide 7
7.4 Surface finish of ceramic teeth 8
7.5 Surface finish of synthetic polymer teeth 8
7.6 Porosity of ceramic teeth 9
7.7 Porosity of synthetic polymer teeth and other defects 10
7.8 Radioactivity of ceramic teeth 12
7.9 Anchorage of ceramic teeth to denture base polymers 12
7.10 Resistance of ceramic teeth to thermal shock 12
7.11 Quality of bonding of synthetic polymer teeth to denture-base polymers 13
7.12 Resistance to blanching, distortion and crazing of synthetic polymer teeth 15
7.13 Colour stability of synthetic polymer teeth 16
7.14 Dimensional stability of synthetic polymer teeth 16

8 Marking, labelling, packaging, and information to be supplied by the manufacturer 17
8.1 Marking, labelling and packaging 17
8.2 Information to be supplied by manufacturer 17
8.3 Manufacturer's instructions 18
