

# DIN EN 17007:2017-12 (E)

## Maintenance process and associated indicators

---

Contents	Page
European foreword .....	3
Introduction .....	4
1 Scope .....	5
2 Normative references .....	5
3 Terms and definitions .....	5
4 Abbreviated terms and notations .....	8
5 Principles of maintenance process breakdown .....	9
5.1 Process families .....	9
5.2 Breakdown into levels .....	10
5.3 Use of the Maintenance process breakdown .....	12
6 Breakdown of the maintenance process and process profiles .....	13
6.1 Maintenance process .....	13
6.2 MAN process: Manage maintenance .....	15
6.3 PRV process: Prevent undesirable events by avoiding failures and faults .....	19
6.3.1 General .....	19
6.3.2 PRV.1 - Characterize the undesirable events .....	19
6.3.3 PRV.2 - Use and update the Maintenance Plans .....	21
6.4 COR process: Restore the items to their required state .....	23
6.4.1 General .....	23
6.4.2 COR.1 - Classify the actual events .....	24
6.4.3 COR.2 - Diagnose the state of the items in question .....	24
6.5 ACT process: Act preventively and/or correctively on the items to maintain .....	27
6.5.1 General .....	27
6.5.2 ACT.1 - Rank the events .....	28
6.5.3 ACT.2 - Prepare for the maintenance tasks .....	29
6.5.4 ACT.3 - Set in order the tasks .....	30
6.5.5 ACT.4 - Schedule the tasks .....	31
6.5.6 ACT.5 - Start the scheduled tasks .....	32
6.5.7 ACT.6 - Perform the maintenance tasks .....	33
6.5.8 ACT.7 - Finalise the maintenance tasks .....	34
6.6 IMP process: Improve the items .....	36
6.7 HSE process: Ensure personal health and safety to individuals and preserve environment in maintenance .....	39
6.8 BUD process: Budget maintenance of items .....	42
6.9 DOC process: Deliver the operational documentation .....	45
6.10 DTA process: Manage data .....	48
6.11 IST process: Provide the needed infrastructures .....	52
6.12 MRG process: Deliver maintenance requirements during items design and modification .....	55
6.13 OPT process: Improve the results .....	58
6.14 RES process: Provide internal human resources .....	61
6.15 SER process: Provide external maintenance services .....	64
6.16 SPP process: Deliver spare parts .....	67
6.17 TOL process: Deliver the tools, support equipment and information system .....	72
Bibliography .....	75
