ISO 18725:2024-06 (E)

Tourism and related services - Yacht harbours and dry stacks - Requirements for clean harbours and active biodiversity harbours

Contents

Page

Foreword ... **iv**

Introduction ... **v**

1 Scope ... **1**

2 Normative references ... **1**

3 Terms and definitions ... **1**

4 Clean harbour policy statement ... **3**

5 Implementation of a clean harbour strategic approach ... **3**

5.1 Diagnostic study ... 3

5.2 Implementation of operational criteria ... 4

5.2.1 General ... 4

5.2.2 Pollution and waste treatment ... 4

5.2.3 Sanitary facilities (showers and toilets, sinks, unloading of chemical toilets) ... 5

5.2.4 Accidental pollution ... 5

5.2.5 Water and energy resources ... 6

5.3 Training, information, user awareness and responsiveness to users ... 6

5.3.1 Training and awareness of yacht harbour personnel ... 6

5.3.2 User information/awareness and feedback handling ... 7

6 Strategic approach management ... **7**

7 Optional suite: active biodiversity harbours ... **8**

7.1 Approach to biodiversity in the yacht harbour and its area of influence ... 8

7.2 Knowing the yacht harbour's environment and its area of influence ... 8

7.2.1 Compilation and analysis of existing studies ... 8

7.2.2 Choice of solution to be implemented ... 8

7.2.3 Project management ... 9

7.2.4 Communication ... 10

Annex A (informative) **Examples of actions for promoting alternative sources for water and energy in yacht harbours** ... **11**

Annex B (informative) **Examples of communication actions for active biodiversity yacht harbours** ... **12**

Annex C (informative) **Examples of actions to preserve biodiversity in yacht harbours** ... **13**

Bibliography ... **14**
