

ISO 18725:2024-06 (E)

Tourism and related services - Yacht harbours and dry stacks - Requirements for clean harbours and active biodiversity harbours

| Contents | | Page |
|------------------------------|---|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 1 |
| 4 | Clean harbour policy statement | 3 |
| 5 | Implementation of a clean harbour strategic approach | 3 |
| 5.1 | Diagnostic study | 3 |
| 5.2 | Implementation of operational criteria | 4 |
| 5.2.1 | General | 4 |
| 5.2.2 | Pollution and waste treatment | 4 |
| 5.2.3 | Sanitary facilities (showers and toilets, sinks, unloading of chemical toilets) | 5 |
| 5.2.4 | Accidental pollution | 5 |
| 5.2.5 | Water and energy resources | 6 |
| 5.3 | Training, information, user awareness and responsiveness to users | 6 |
| 5.3.1 | Training and awareness of yacht harbour personnel | 6 |
| 5.3.2 | User information/awareness and feedback handling | 7 |
| 6 | Strategic approach management | 7 |
| 7 | Optional suite: active biodiversity harbours | 8 |
| 7.1 | Approach to biodiversity in the yacht harbour and its area of influence | 8 |
| 7.2 | Knowing the yacht harbour's environment and its area of influence | 8 |
| 7.2.1 | Compilation and analysis of existing studies | 8 |
| 7.2.2 | Choice of solution to be implemented | 8 |
| 7.2.3 | Project management | 9 |
| 7.2.4 | Communication | 10 |
| Annex A (informative) | Examples of actions for promoting alternative sources for water and energy in yacht harbours | 11 |
| Annex B (informative) | Examples of communication actions for active biodiversity yacht harbours | 12 |
| Annex C (informative) | Examples of actions to preserve biodiversity in yacht harbours | 13 |
| Bibliography | | 14 |
