DIN CEN/TS 15130:2006-07 (D)

Postalische Dienstleistungen - Infrastruktur für Elektronische Freimachungsvermerke (DPM) - Nachrichten zur Unterstützung von Anwendungen der DPM; Englische Fassung CEN/TS 15130:2006

Inhalt

Seite

Foreword ... 3

Introduction ... 4

1 Scope ... 4

2 Normative references ... 5

3 Terms and definitions ... 5

4 Requirements ... 9
4.1 Functional structure ... 9
4.2 Technical requirements ... 9
4.3 Security requirements ... 10
4.3.1 General ... 10
4.3.2 Introduction ... 10
4.3.3 Security business objectives, policy and economics ... 10
4.3.4 Threats and vulnerabilities (attacks) ... 11
4.3.5 Vendor-post channel ... 13

5 Description of the models (system architecture and interaction diagrams) ... 13
5.1 Introduction ... 13
5.2 Key management processes ... 14
5.2.1 General ... 14
5.2.2 Initialization and re-key of the vendor-post key management infrastructure ... 14
5.2.3 Distribution of cryptographic material for DPM protection ... 15
5.2.4 Withdrawal of mailing system ... 21
5.3 Licensing, parameterization and operational variables of a mailing system ... 21
5.3.1 Licensing and parameterization - Protocol description ... 21
5.3.2 Update of operational variables – Protocol description ... 22
5.4 Data collection and reporting processes ... 23
5.4.1 Financial reporting from vendor to post ... 24
5.4.2 Activity reporting from vendor to post ... 28
5.4.3 Administrative reporting from vendor to post ... 31
5.5 Audit-related processes ... 34
5.5.1 Audit of infrastructure elements ... 34

Annex A (normative) Implicit certification process ... 36

Annex B (normative) Message structure ... 38

Annex C (informative) Development principles ... 41

Bibliography ... 42
