

DIN EN ISO 20685:2010-11 (E)

3-D scanning methodologies for internationally compatible anthropometric databases (ISO 20685:2010)

Contents		Page
Foreword		3
Foreword		3
Introduction		4
1 Scope		5
2 Normative references		5
3 Terms and definitions		5
4 Accuracy of extracted measurements		9
5 Research designs for establishing accuracy of body dimensions extracted from scanners		12
6 Method for estimating the number of subjects needed		13
Annex A (informative) Methods for reducing error in 3-D scanning		15
Bibliography		24
