

# DIN EN ISO 9241-210:2011-01 (E)

## Ergonomics of human-system interaction - Part 210: Human-centred design for interactive systems (ISO 9241-210:2010)

---

| <b>Contents</b>       |   | <b>Page</b> |
|-----------------------|---|-------------|
| Foreword .....        |   | 3           |
| Introduction .....    |   | 4           |
| 1                     | Scope .....   | 5           |
| 2                     | Terms and definitions .....   | 5           |
| 3                     | Rationale for adopting human-centred design .....   | 8           |
| 4                     | Principles of human-centred design .....  | 9           |
| 4.1                   | General .....   | 9           |
| 4.2                   | The design is based upon an explicit understanding of users, tasks and environments ..... | 9           |
| 4.3                   | Users are involved throughout design and development .....                                | 10          |
| 4.4                   | The design is driven and refined by user-centred evaluation .....                         | 10          |
| 4.5                   | The process is iterative .....  | 10          |
| 4.6                   | The design addresses the whole user experience .....                                      | 11          |
| 4.7                   | The design team includes multidisciplinary skills and perspectives .....                  | 12          |
| 5                     | Planning human-centred design .....   | 12          |
| 5.1                   | General .....   | 12          |
| 5.2                   | Responsibility .....  | 12          |
| 5.3                   | Content of plan .....   | 13          |
| 5.4                   | Integration with project plan .....   | 13          |
| 5.5                   | Timing and resources .....  | 13          |
| 6                     | Human-centred design activities .....   | 14          |
| 6.1                   | General .....   | 14          |
| 6.2                   | Understanding and specifying the context of use .....                                     | 15          |
| 6.3                   | Specifying the user requirements .....  | 16          |
| 6.4                   | Producing design solutions .....  | 18          |
| 6.5                   | Evaluating the design .....   | 20          |
| 7                     | Sustainability and human-centred design .....   | 23          |
| 8                     | Conformance .....   | 23          |
| Annex A (informative) | Overview of the ISO 9241 series .....   | 25          |
| Annex B (informative) | Sample procedure for assessing applicability and conformance .....                        | 26          |
| Bibliography .....    |   | 36          |
