

DIN SPEC 33440:2013-05 (E)

Ergonomic design of user-interfaces and products for Smart Grid and Electromobility

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	6
4	Fundamental ergonomic goals and principles	8
4.1	Ergonomics -- General	8
4.2	Ergonomic goals	9
4.2.1	Usability	9
4.2.2	Ease of operation	9
4.2.3	Accessibility/"Zugänglichkeit"	9
4.2.4	User experience (joy of use) (see informative Annex B)	10
4.2.5	Trust (see informative Annex A)	11
5	Application of ergonomic principles and goals to the user interface	11
5.1	User dialogues	11
5.1.1	General	11
5.1.2	Suitability for the task	11
5.1.3	Self-descriptiveness	11
5.1.4	Conformity with user expectations	12
5.1.5	Suitability for learning	12
5.1.6	Controllability	13
5.1.7	Other aspects	14
5.2	Design and layout of interactive elements (input and output)	15
5.2.1	Importance	15
5.2.2	Fundamental procedure	15
5.2.3	Compatibility -- obviousness	15
5.2.4	Selecting the dialogue elements	19
5.3	Presentation of information	20
5.4	User guidance	21
5.4.1	Language	21
5.5	Technical documentation	23
5.5.1	General	23
5.5.2	Language	23
5.5.3	Product description	24
5.5.4	Operating manuals/instructions for use/user information	24
6	Development of ergonomic products and services	25
6.1	Context of use	25
6.1.1	Target population	25
6.1.2	Specification of the functional scope of a product or service	25
6.1.3	Specification of the use environment and possible interferences	25
6.2	Iterative development process	26
Annex A (informative) Trust		27
Annex B (informative) User experience "Joy of use"		28

Annex C (informative) Ease of operation -- Examples	29
Annex D (informative) Recommendations for the design of operating manuals	31
Annex E (informative) Smart meter grids	33
Bibliography	37
