DIN EN ISO 9241-391:2016-10 (E)

Ergonomics of human-system interaction - Part 391: Requirement s, analysis and compliance test methods for the reduction of photosensitive seizures (ISO 9241-391:2016)

Contents

Page

European foreword ... **3**

Foreword ... **4**

Introduction ... **7**

1 Scope ... **8**

2 Normative references ... **8**

3 Terms and definitions ... **8**

4 Image factors of photosensitive seizures ... **9**

5 Ergonomic requirements and recommendations ... **10**
5.1 General ... 10
5.2 Flashes ... 10
5.2.1 Potentially harmful flashes ... 10
5.2.2 Rapid changes of image sequences ... 11
5.2.3 Potentially harmful red flashes ... 11
5.2.4 Cumulative risk ... 11
5.2.5 Prior warning ... 11
5.3 Potentially harmful regular patterns ... 11

6 Conformance ... **12**
6.1 General ... 12
6.2 Test methods ... 12
6.3 Procedure of conformance ... 13

Annex A (informative) **Overview of the ISO 9241-series** ... **14**

Annex B (informative) **Abbreviated terms** ... **15**

Annex C (informative) **Clinical aspects of photosensitivity** ... **16**

Annex D (informative) **Viewing environments** ... **17**

Annex E (informative) **Saturated red** ... **18**

Annex F (informative) **Typical relation between screen luminance and signal voltage** ... **19**

Annex G (informative) **Sample procedure for assessing applicability and conformance** ... **20**

Bibliography ... **22**
