ISO 9241-500:2018 (E)

Ergonomics of human-system interaction — Part 500: Ergonomic principles for the design and evaluation of environments of interactive systems

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Ergonomic principles for the design and evaluation of environments

- 4.1 General considerations
- 4.2 Basic principles
- 4.2.1 Introduction to the basic principles
- 4.2.2 Fit for the intended user population
- 4.2.3 Versatility # flexibility
- 4.2.4 Freedom from interference between task and environment
- 4.2.5 Postural change
- 4.2.6 Maintainability
- 4.2.7 Adaptability
- 4.3 Accessibility
- 4.4 User information

5 Conformance
