

# ISO/TR 9241-393:2020-03 (E)

## Ergonomics of human-system interaction - Part 393: Structured literature review of visually induced motion sickness during watching electronic images

---

| <b>Contents</b>    |   | <b>Page</b> |
|--------------------|---|-------------|
| Foreword .....     |   | v           |
| Introduction ..... |   | vi          |
| 1                  | Scope .....   | 1           |
| 2                  | Normative references .....  | 1           |
| 3                  | Terms and definitions .....   | 1           |
| 4                  | Theories of visually induced motion sickness .....                  | 2           |
| 5                  | Measurement of visually induced motion sickness .....               | 3           |
| 6                  | Effective factors of visually induced motion sickness .....         | 8           |
| 6.1                | General .....   | 8           |
| 6.2                | Effective factors: Visual image factors .....                       | 8           |
| 6.2.1              | General .....   | 8           |
| 6.2.2              | Role of visual motion .....   | 9           |
| 6.2.3              | Real and virtual motion .....                                       | 10          |
| 6.2.4              | Constant rotation of global image motion .....                      | 11          |
| 6.2.5              | Change of velocity of global image motion .....                     | 14          |
| 6.2.6              | Cyclic rotation of global image motion .....                        | 16          |
| 6.2.7              | Cyclic translation of global image motion .....                     | 17          |
| 6.2.8              | Velocity effects of forward motion with complicated motion .....    | 18          |
| 6.2.9              | Off-axis rotation of visual yaw rotation .....                      | 20          |
| 6.2.10             | Combination of different axes of visual motion .....                | 22          |
| 6.2.11             | Anisotropy effects of back and forth translation .....              | 25          |
| 6.2.12             | Spatial frequency of visual image .....                             | 26          |
| 6.2.13             | Spatial pattern of visual image .....                               | 27          |
| 6.2.14             | Independent visual background from visual motion .....              | 28          |
| 6.2.15             | Chromaticity of visual image .....                                  | 29          |
| 6.2.16             | Blur of visual image .....  | 30          |
| 6.2.17             | Cognitive orientation cues of visual image .....                    | 31          |
| 6.2.18             | Stereoscopic image .....  | 32          |
| 6.2.19             | Prediction signs for motion .....                                   | 38          |
| 6.3                | Effective factors: Visual environmental factors .....               | 41          |
| 6.3.1              | General .....   | 41          |
| 6.3.2              | Image size in visual field .....                                    | 42          |
| 6.3.3              | Perspective difference between capturing and rendering images ..... | 45          |
| 6.3.4              | Time delay in HMD .....   | 46          |
| 6.3.5              | Duration and repeated exposure to visual stimulus .....             | 48          |
| 6.3.6              | Changes in illumination colour .....                                | 49          |
| 6.3.7              | Auditory stimulation .....  | 51          |
| 6.3.8              | Odour simulation .....  | 52          |
| 6.4                | Effective factors: Individual viewer factors .....                  | 53          |
| 6.4.1              | General .....   | 53          |
| 6.4.2              | Gender .....  | 54          |
| 6.4.3              | Gender - Menstrual cycle - .....                                    | 57          |
| 6.4.4              | Age .....   | 58          |
| 6.4.5              | Active/Passive viewing .....  | 59          |

|              |   |           |
|--------------|---|-----------|
| <b>6.4.6</b> | <b>Fixation .....</b>   | <b>60</b> |
| <b>7</b>     | <b>Susceptibility probability of motion sickness .....</b>                                  | <b>62</b> |
| <b>8</b>     | <b>Scaling of VIMS severity .....</b>   | <b>63</b> |
| <b>9</b>     | <b>Summary .....</b>  | <b>65</b> |
|              | <b>Annex A (informative) Overview of the ISO 9241 series .....</b>                          | <b>66</b> |
|              | <b>Annex B (informative) Scaling symptoms severity induced by visual motion .....</b>       | <b>67</b> |
|              | <b>Annex C (informative) Effective factors from the viewpoint of image production .....</b> | <b>69</b> |
|              | <b>Bibliography .....</b>   | <b>78</b> |
